PROFILE

I am a student of a Diploma in Computer Science who is currently seeking **an internship placement for six (6) months** starting from **8th September 2025** to **20th February 2026**. I am offering programming skills with various knowledge in system development, database management and visualization tools. Fluent in Malay, can speak, write in English quite well and I am always working to improve my skills to communicate with customers and colleagues when needed.

EXPERIENCE

Sales Assistant, AEON Mall Cheras Selatan

Jun 2023 - Aug 2023

- Assisted with daily tasks on the sales floor, serving a high number of customers each day and ensuring a smooth shopping experience.
- Worked closely with the team leader and other staff to carry out promotional activities and meet daily sales goals.
- Learned how to handle responsibilities in a fast-paced retail environment that helps in time management.
- Skills Gained: Time and task management, Teamwork and following instructions, communication with customers and team members.

Participant – Varsity Challenge 2025 Hackathon

April 2025

- Took part in a hackathon focused on AI for Education & Learning organized by JomHack Malaysia.
- Collaborated with a team to design and build a basic system prototype that meets the requirements of the challenge.
- Gained hands-on experience using tools such as XAMPP, Visual Code Studio and GitHub for development and testing.
- Skills Gained: Team collaboration, Problem-solving, System development.

EDUCATION

Diploma in Computer Science

Oct 2023 - Present

MARA University of Technology (UiTM), Segamat

- Current CGPA: 3.88
- Relevant coursework in Data Structures and Algorithms, Database Systems (MySQL), Web Development (HTML, CSS, JavaScript), Object-oriented Programming.

Sijil Pelajaran Malaysia (SPM)

Jan 2018 – Dec 2022

Sekolah Menengah Kebangsaan Dusun Nanding

- SPM: 7 As
- Computer science students

PROJECTS

Hotel Booking System

Oct 2023 – Jan 2024

(C++)

- Developed basic hotel booking system using C++ as part of first semester group project.
- The system included core features such as room selection, customer data input, booking confirmation and payment summary.
- Applied object-oriented programming (OOP) concepts such as classes and function.

Web Programming: Library Management System

Oct 2025 – Present

(HTML, PHP, CSS, JavaScript, XAMPP)

- Developed a web-based system to allow students and staff to book a study room and borrow books online, reducing the need for physical interaction at the library counter.
- Designed and implemented the user interface using HTML, CSS and JavaScript for an intuitive and responsive user experience.
- Integrated XAMPP (Apache, MySQL, PHP) for backend development to handle data storage, lending records and room booking.

ADDITIONAL INFORMATION

- **Technical Skills:** Visual Code Studio, XAMPP, BlueJ, MySQL Workbench, HTML, CSS, JAVA, C++, PHP Programming, Prolog, C programming, Lucid Chart.
- **Language:** English (Intermediate), Malay (Fluent)
- **Certifications:** Microsoft AI for All
- **Awards:** Dean's List Awards (Semester 1 – Semester 3)
